Project Timeline and Upcoming Activities

▲ Operations and IT Assessment

- Currently on schedule (95% complete)
- Finalizing current state assessments
- Documenting gaps and quantifying opportunities

▲ Data Analysis

- Completing analyses (~70% complete)
- ARA EMS analysis may be more limited as data just received
- Ad Valorem analysis may be limited since data provided was less complete

▲ 3rd Party Vendor Assessment

- Currently on schedule (95% complete)
- Finalizing current state assessments
- Documenting gaps and quantifying opportunities

ARC Themes & Opportunities

Theme	Observations
Collaboration Across Departments <ul style="list-style-type: none"> ▲ Skip Tracing ▲ Customer Matching ▲ Business Permitting 	<ul style="list-style-type: none"> ▲ Skip Tracing <ul style="list-style-type: none"> ” There is generally little recourse to find a debtor if their information is incorrect ” Internal data exists . HCAD, InfoUSA, department databases . but is not shared ▲ Customer Matching <ul style="list-style-type: none"> ” Commercial accounts consolidation and address consolidation ” Customer matching algorithm in CSMART (court management system in development) ▲ Business Permitting and Inspections: <ul style="list-style-type: none"> ” ARA (Comm. Permitting, Burglar, BARC), HFD, HHS, HPD, PD, PR, PWE, and SWM all require permits and licenses ” A business may require several permits to start a business but there are no clear guidelines as to which permits are needed ” Permits are sold by different departments and some in different locations ” Inspection process is fragmented and could benefit from more collaboration ” Many permits do not have late fees or penalties for non-compliance
Measurement and Reporting <ul style="list-style-type: none"> ▲ External vendors ▲ Internal 	<ul style="list-style-type: none"> ▲ Need clear understanding of collectable and uncollectable AR ▲ External vendors . focused on absolute \$ and limited recognition of collection rate or aging ▲ Internal . very little collections/AR reporting; more focused on revenue ▲ Internal and external performance measures need to be implemented and tracked
Collections Improvement <ul style="list-style-type: none"> ▲ Unsatisfactory reach into delinquent accounts 	<ul style="list-style-type: none"> ▲ Burglar Alarms . increasing size of 300+ delinquent bucket ▲ MCD One Call Solution Center . prioritizes accounts on recent delinquency and currently unable to touch all accounts with a live collector based on staffing levels and technology ▲ Parking Management . other than booting eligible vehicles, no teeth on back end of the collections process such as credit reporting and scofflaw

Opportunities, Achievements, Next Steps

Department / Vendor	Achievements and Next Steps
Citywide	<ul style="list-style-type: none"> ▲ Released Request For Information (RFI) for Skip Tracing Service providers ▲ Permitting Sub-Project Due Diligence and Implementation is underway (slide 6) ▲ SAP AR Pilot Project is Live with bills generated at end of month; Phase II begun (slide 7)
ARA – Burglar Alarms <ul style="list-style-type: none"> ▲ PMAM 	<ul style="list-style-type: none"> ▲ Began implementation of 30 short and long term process improvements related to collections and increasing permit compliance (revenue) including: <ul style="list-style-type: none"> ▲ Improving vendor skip tracing processes ▲ Formalizing vendor performance measurements and metrics and developing supporting tools to track performance and benefits ▲ Coordinating with other departments to increase customer awareness for alarm permits ▲ Executing against plan to collect older AR outstanding ▲ Refining customer contact strategy to increase collections and permit compliance ▲ Considering a late penalty on false alarm fines to incentivize compliance and quicker payment ▲ Reduced invoice due date from 45 to 30 days to increase speed of collections ▲ Key Issues: <ul style="list-style-type: none"> ▲ Customer difficulty in understanding which permit is required causes ramifications throughout the collection process, ARA investigating a single combination permit ▲ Difficulty in obtaining client data from ADT per City ordinance to match against current permits and determine non-compliant alarm customers; customers must have a burglar alarm permit for guaranteed police response to burglar alarms (HPD must respond to %Panic Alarms+)
ARA – EMS Transports <ul style="list-style-type: none"> ▲ ACS 	<ul style="list-style-type: none"> ▲ Implemented new EMS Invoices and Delinquency Notices highlighting online account information and payment portal ▲ Identified ACS accrual had not been adjusted from 21% to 11% with new contract terms ▲ Key Issue: Received 50GB ACS transactional data files in mid-December; translated files into usable format and beginning analysis now
HHS / HPD Source Registration	<ul style="list-style-type: none"> ▲ Assisting HHS and HPD with Source Registration collaboration (HPD Auto Dealer detail visits many HHS permit locations and has agreed to notify HHS of its non-compliant businesses)
HPL – Library Fines <ul style="list-style-type: none"> ▲ Unique Management Services 	<ul style="list-style-type: none"> ▲ Implemented process to transfer of Date of Birth and Texas Driver License # to vendor to increase hit rate on skip tracing ▲ UMS to use data to repeat skip trace of existing delinquent accounts
MCD – Municipal Court Fines <ul style="list-style-type: none"> ▲ Linebarger 	<ul style="list-style-type: none"> ▲ Working with MCD & ITD to design more robust C-Smart Collections algorithm to target accounts and maximize collections ▲ MCD implemented new Linebarger contract terms for COH to collect 30% fee from day 61 . 90 of delinquency; total revenue collected September . November of \$28,157

▲ Project Due Diligence Underway

- Reviewing all permits, licenses and fees to identify staff, IT systems, permit & inspection processes, and current permit holders
- Documenting permits by category of business
- Identifying inter-departmental permit links
- Developing database to store permit and business category information

▲ Next Steps

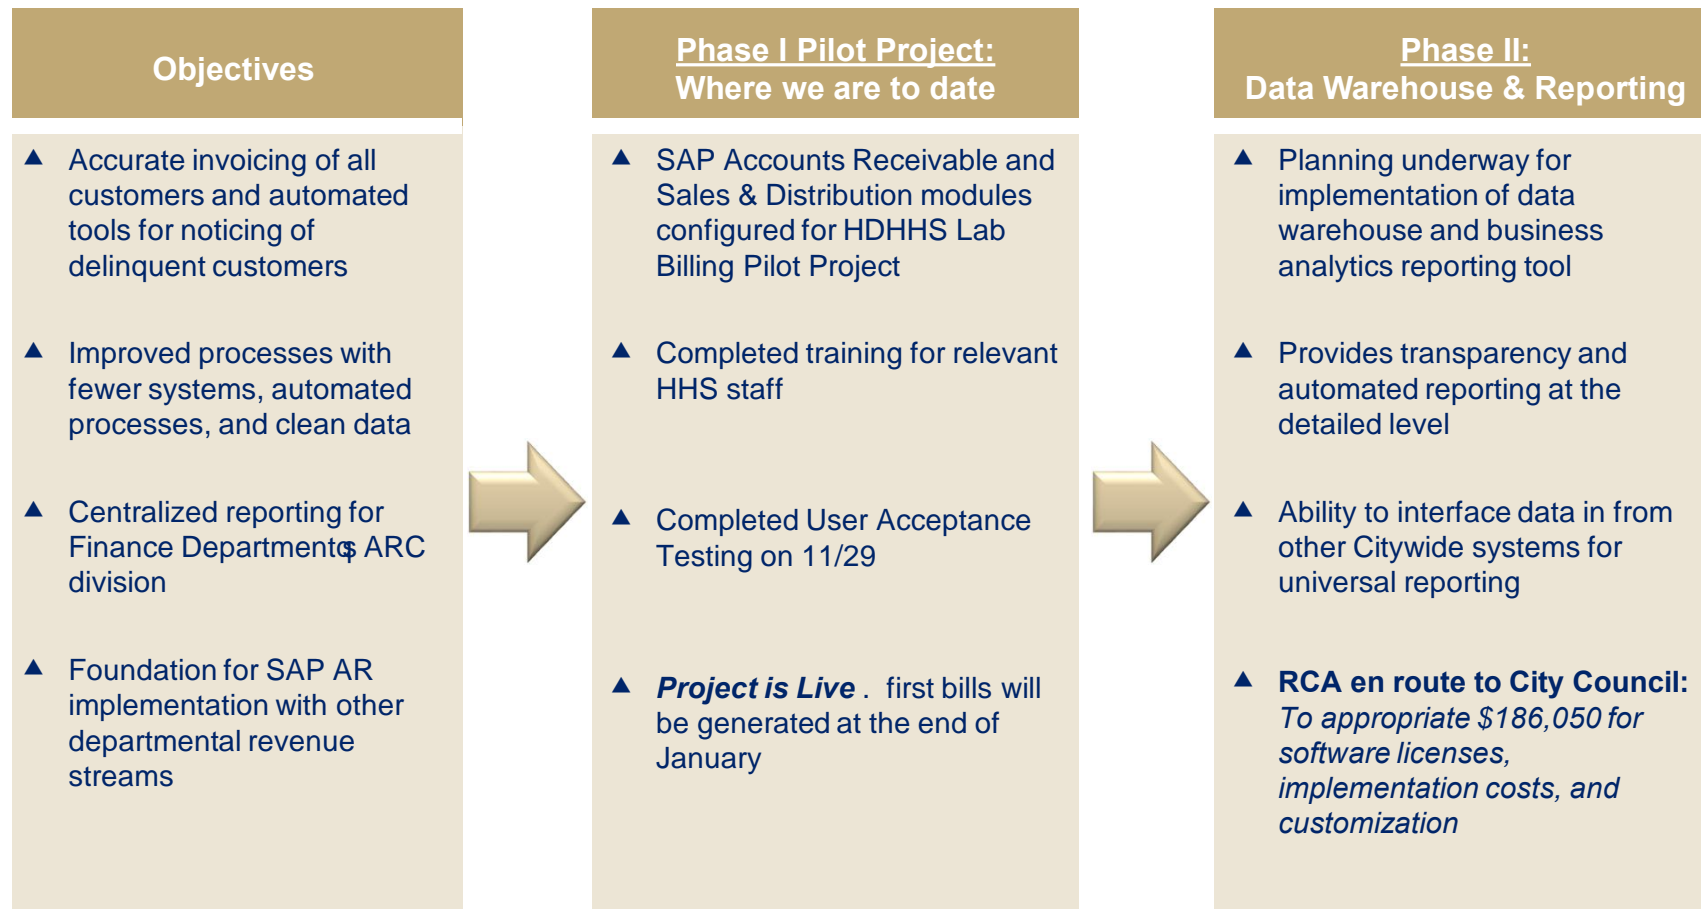

- Perform audit of each permit-requiring category of business to identify those not in compliance
- Contact and bill those businesses not in compliance
- Develop web/customer tool so businesses can easily identify what permits and licenses they need
- Draft plan to share information across departments and systems
- Craft permit non-compliance ordinance to penalize businesses when they are willfully negligent

▲ Long Term Vision

- Identify opportunities to simplify processes
- Develop formal tools to foster greater collaboration and enforcement between departments
- Launch tools to improve customer experience
- Develop self service and additional payment options
